OVER THE YEARS

Commentaries based on cataloging over 325 sales

The grading controversy over the ANACS (American Numismatic Association Certification Service) has reached such proportions that the ANA is determined to give it top priority. They requested Kenneth Bressett (author of the ANA book on grading and teacher of the annual ANA summer seminar on grading) to move to Colorado Springs and take charge of the ANACS. In view of the importance of the grading problem, we felt that we had to forego the valued services of Ken for the greater benefit of the ANA and numismatics.

When Ken decided to join Kagin's after being with Whitman Publishing Company for twenty-two years, his decision was not made lightly. Now, after being with Kagin's more than two years and settling in and adjusting to the community, he felt compelled to again go through the arduous process of moving to a different state. With Ken's dedication to numismatics, there was no other alternative but to make the move to Colorado Springs.

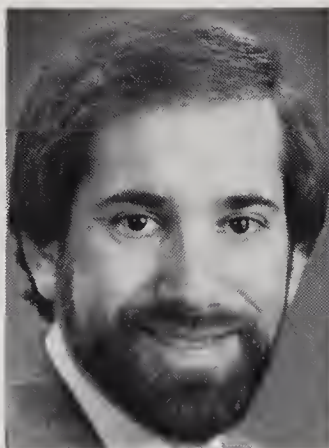

We'll miss the close working relationships with Ken but look forward to frequently visiting with him at either Colorado Springs or at the various conventions and seminars involving the ANA.

The market seems to have stabilized with very few true top-quality coins and currencies being offered. What few do appear attract spirited bidding. History tends to repeat itself. Those who bought coins and currencies in 1975, 76 and 77, after the "boom" of 1973-74, sold them at substantially more in 1979 and 1980. We believe that those buying coins and currencies this year will be able to sell them at substantially more in a year or two, or possibly three. Collectors who stayed away from the market for the last two years, feeling prices were "too high," have now reappeared and are buying at what they feel are "right" or even "bargain prices." Patience, in the long run, has always paid off.

GENA will not be the same with the sudden passing of Bill Loss. The ultimate accolade comes to mind. "We took him for granted. He was always available for help and advice."

10. All claims for adjustments must be made in writing within 5 days following the receipt of the coins or invoice. Late remittance for purchases is cause for negating this privilege.

17. All bidders must be of legal age (18) or have their bid sheet signed by an individual of legal age, accepting responsibility for payment.

10%—10%

KAGIN NUMISMATIC AUCTIONS has instituted a 10%—10% consignment / buyers commission structure. This centuries old European system is becoming widely accepted by most of the major numismatic firms in the United States.

Late bids may be mailed by Special Delivery to Kagin's c/o **The STATLER HOTEL, 7th Avenue, 32nd and 33rd Streets, New York, New York 10001.** Late bids must be received by Kagin's no later the morning of Thursday, September 30, 1982. Since bids are frequently received after the sale, late bidders are urged to phone their bids to: Kagin's TOLL FREE 1-800-247-5335.

HOW TO BID

What to Bid On:

As you read through the catalog for the first time, record the numbers of all the lots you are interested in on a worksheet. If you are interested in specific types of coins, be sure to check the catalog index.

How Much To Bid:

The price you bid is determined by you. You must remember the value that you place on the coins. Check the descriptions in the catalog and decide what you are willing to pay. You should bid generously on the lots you strongly wish to obtain. If there are some lots you would like to have 'if the price is right', then you may want to place nominal bids on those lots. Because a number of collectors choose to bid on many lots, the number of successful bids will be relatively small. This is controlled by a very active market. **You can safely extend your bidding** (and take advantage of a 'bargain') by placing a dollar total limit on your bids. Should your total be reached before all your bids are executed, we will then terminate your bidding.

Remember that your bids are limits. It is possible, and quite often does occur, that you will succeed in purchasing a lot for less than your bid since we start the floor bidding at about 5-10% above the second highest mail bid. Example: You bid \$500.00 on the lot and the next highest mail bid is \$400.00; we start the lot bid at \$425.00. If there are no bids from the floor, you will then be awarded the lot at \$425.00—or if the floor bidding stops at perhaps \$450.00 or \$475.00 then you will receive the lot at a small advance above the top floor bid. If bidding continues above the \$500.00, then that floor bidder will be awarded the lot.

How to Fill Out the Bid Sheet

On the Bid Sheet you will observe that there are two different column headings: Lot and Bid. When you decide on which lots you want to bid, enter the lot numbers under the proper column and the maximum amounts you are willing to pay for those lots in the proper column.

LOT	BID	LOT	BID
482	550.00		
517	900.00		
614	130.00		

If you have circled one of the increase percentages, you will be allowing us to increase your maximum bid in order to obtain the lot which is going for more than you had anticipated. We will buy the lots for you as low as possible as outlined in the TERMS OF SALE.

YOU ARE THERE

If you are unable to attend a Kagin's auction, you can bid on material by mail or take advantage of Kagin's "unique" YOU ARE THERE SERVICE. A.M. (Art) or Don Kagin will personally serve as your representative at the auction. This service allows you to avoid the situation of not receiving the material you desire because you were unable to attend in person. This personal service is provided free of charge at all Kagin's auctions. Art or Don Kagin are always available for personal consultation in numismatic matters.

GRADING STANDARDS

Coins

(Kagin's uses strict ANA grading standards in addition to Dr. Sheldons's for the lower grades — Fair-2 & Poor-1).

MS-70 (Perfect Uncirculated): Once in a great while a perfect coin is sold.

MS-67 (Gem Uncirculated): No bag marks, hairlines, or other evidence of handling or contact with other coins.

MS-65 (Choice Uncirculated): Fully struck with only a bare minimum of minor abrasions.

MS-63 (Select Uncirculated): Nicely struck with fewer than usual bag marks, nice luster.

MS-60 (Uncirculated): Strictly uncirculated with no evidence of wear, only a moderate number of bag marks on surface.

AU-55 (Choice About Uncirculated): Bare traces of friction at the highest points.

AU-50 (About Uncirculated): Traces of wear on many of the highest points.

EF-45 (Choice Extremely Fine): Light overall wear on highest points, all design details very sharp.

EF-40 (Extremely Fine): Slightly more wear than EF-45, still with excellent overall sharpness.

VF-30 (Choice Very Fine): Light even wear on the surface, design details on the highest points lightly worn, sharp lettering and major features.

VF-20 (Very Fine): As preceding, but with moderate wear on highest parts.

F-12 (Fine): Moderate to considerable even wear.

VG-8 (Very Good): Well worn, most fine details worn nearly smooth.

G-4 (Good): Heavily worn, major designs visible, but with faintness in areas, without center detail.

AG-3 (About Good): Very heavily worn with portions of lettering, date, and legends being worn smooth, date barely readable.

Fair-2: Showing very little detail.

Poor-1: Barely recognizable as to type.

Currency

Superb Gem CU (Superb Gem Crisp Uncirculated): A flawless note. Perfectly centered with sharp corners. Full brightness and absolutely no handling or other impairments. Wider than usual margins.

GEM CU (Gem Crisp Uncirculated): Bright and well centered. Full original crispness with no handling or aging. A virtually flawless note.

Choice CU (Choice Crisp Uncirculated): Flawless appearance. Close examination might reveal teller handling, minute pinholes, or very light aging. A note with an excess of the above mentioned defects would not be considered Choice.

CU (Crisp Uncirculated): No folds or corner creases. May have obvious aging, rounded corners, handling marks, pinholes, or other flaws that indicate mishandling. A note that does not retain full crispness or appears starched should be examined for processed or pressed-out folds.

AU (About Uncirculated): The criteria for this grade is basically the same as for Uncirculated but a note may have a single fold or several small corner creases.

EF (Extremely Fine): Two or three creases evident. The note should be bright and retain nearly full crispness.

VF (Very Fine): Notes in this grade show obvious use. May have several folds and have started to lose some of its original crispness. Light soiling due to normal handling is accepted. Heavy soiling and excessive handling or loss of crispness is not acceptable in this grade.

F (Fine): Very little original crispness evident. It should still exhibit its original brightness but will show much handling and soiling.

VG (Very Good): May be soiled and well worn. All engraved features clear and complete. Margins must be intact.

G (Good): Heavily soiled with no original color or body. May have frayed margins and small tears. Engraved features will be visible but not bold.

COLONIAL (EARLY AMERICAN)

135. **(1664) ELEPHANT TOKEN** "God Preserve London," thick smooth planchet. **Choice AU-55+**, Pleasing lustrous deep chocolate and brown, only barest friction on high points. Struck slightly off center at top reverse, small edge ding apparent on obverse at about seven o'clock and a tiny insignificant planchet imperfection noted at center of shield on reverse. Overall a quite impressive piece, far above average to most specimens encountered.

136. **1787 IMMUNIS COLUMBIA**, Eagle Reverse, dies by James Atlee. **Choice AU-50**, A splendid sharp well centered specimen struck on a somewhat larger than usual planchet for this design. *Full date, full legends* and virtually flawless mark free surfaces. Pleasing blue steel and brownish color. Equal to, or perhaps superior to Redbook plate coin, since the piece pictured in book depicts rather incomplete lettering both sides. Without question, one of the finest specimens we have had the pleasure of presenting for public auction in many years. Should surely realize a strong mid-four figure bid.

137. **WASHINGTON (1793?)** Baker-267, small *SUCCESS* Token (brass), plain edge, **Choice AU-50**, toned with much lustre still adhering to devices. Nice strong strike. 139. **1795 LIBERTY AND SECURITY** Halfpenny, muled with **IRISH** Halfpenny, London Edge. **Choice VF-30**, Usual weakness in strike at shield areas and corresponding head details on reverse. *SCARCE.*

SILVER DOLLARS

Rare 1795 Type I Flowing Hair Silver Dollar

454. **1795** Flowing Hair (TYPE 1794), 2 Leaves under wing, **AU-50/Sharp EF-45**, Nice lustre and surface complimented by a warm even golden gray toning. Some faint evidence of clashing obverse die and only a few of the usual minute adjustment marks around milling of reverse, but overall *far superior in detail and strike* than most of these Flowing Hair specimens. *VERY RARE* B-9 (9L-8R) berries variety type.

455. **1795** Draped Bust, Small Eagle, B-14 (bust centered too far left) **Sharp VF-30+** with some details (particularly bust hair strands and eagle's wing feathers) closer to **EF-40**. Expertly repaired to right of date and correspondingly at upper right on reverse. Nevertheless, quite pleasing in overall appearance. Popular early type coin.

456. **1798 B-1**, Draped Bust, Small Eagle, 13 Stars, **AU-55**, A *VERY RARE* and *UNDER-VALUED* small eagle type, R-4 (RARE). Excellent sharpness of bust detail and stars with some faint "mint equalization" marks noted on obverse (done at mint to bring planchet down to proper weight). Typical softly struck eagle on reverse, but wreath is exceptionally bold and well defined. Lovely deep grayish-olive and lavender toning obverse; the reverse a deep brown. One of the sharpest specimens we have seen.

457. **1799/98 B-3** Large Eagle, 15 Star reverse (first and last stars “peep” out from clouds), **Sharp VF-30**, natural toning, clean surfaces, and nice balanced even wear although some slight, but typical reverse center weakness present as struck. *RARE (R-3) Blundered Die.*

458. **1799 B-11a**, No Berries on branch, **AU-50 SHARPLY STRUCK** with nice golden steel gray toning and much lustre. The motto and eagle's wing feathers on reverse are *exceptionally sharp*, a typical of the usual weak center areas from being struck by dished dies. *RARE (R-5)* sub-variety with die break from border touching right side of *D* in *UNITED* to fourth feather in wing. Bought as “*CONDITION CENSUS*” two years ago; present value?

459. **1799 B-11B**, No Berries in branch, *UNLISTED* Sub-variety with additional die cracks (not listed in B-11a) thru *UNITED* and *OF* with original break after *D* being heavier than B-11a. A nice **EF-40**, deep warm purple and gray with traces of greenish tones outlining legends and devices. A couple of pin scratches resembling die breaks evident on reverse at six o'clock, but are not conspicuous and have pleasantly blended into the patina. *EXCESSIVELY RARE* as an *UNLISTED* variety and worthy of a substantial four figure bid.
460. **1799 B-23**, 8 x 5 Stars (as in \$10 gold), only five stars to right, facing, Obverse **Fine-15** overall; the reverse **VF-20** with nice balanced even wear and some outer portions somewhat sharper. Relatively clean surfaces except for a few minor scratches and abrasions. *RARE (R-5). PLATE.*

461. **1800 B-18B** "Comet" die break over *AMERICA*, another *UNLISTED* sub-variety with same attributions as *B-18a*, but *without the fine die crack across shield and to right!* **Sharp EF-45**, Attractive even gray toning, well struck with details and devices on both sides clear and well defined. Nice clean surfaces, only a few very minor insignificant marks that are obscured by the toning. Common variety types now Trend EF-40 at \$1,250; surely this much rarer unlisted sub-variety should realize substantially more.

Very Rare 1858 Liberty Seated Proof Silver Dollar

462. **1858 Select Brilliant PROOF-63**, Lovely glowing golden and pale russet toning with touches of purple around obverse periphery. A "*Proof-only*" date of which only 80 said to have been struck. A few light hairlines in field but nothing of any noteworthy significance. Far superior to most survivors since many have been harshly cleaned or otherwise seriously impaired. Extremely popular date and one that always elicits spirited bidding.

Trade Dollars

463. **1874 CHOICE Brilliant PROOF-65!** Sharp raised Square Edges. Pale golden bluish, pinkish overtones obverse and pleasing blue-green toning around borders. Only 700 proofs struck.

464. **1876-S Very Select MS-64**, Attractive lavender russet toning. Well struck with Ms Liberty displaying full head details. *PLATE*.
465. **1877** With details and sharpness of **EF-45**, Lightly “polished” to simulate prooflike tendencies.
466. **1877 EF-40**, Head weak as usual, other details well defined.

467. **1877-S MS-60**, Attractive soft golden steel toning, somewhat subdued lustre.

468. **1878 Select Brilliant PROOF-63**, A splendid Sharply Struck specimen with Knife-like Wire Edge and *FULL MIRROR* surfaces overlaid with beautiful deep blue, mellow golden red, sea-green and iridescent toning. A “*Proof-only*” Philadelphia Mint issue of 900 pieces. Elusive and rarer than the mintage figures indicate.

\$4 GOLD STELLA

Very Rare 1879 \$4 Flowing Hair Gold Stella

624. **1879 Flowing Hair, Select Brilliant PROOF-63.** Total mintage only 415 pieces! Lovely delicate pale yellow gold color. Typical light die striations are apparent on head of Ms Liberty which indicates this specimen to be one of the 400 later restrikes. Some light hairlines noted in fields and a few minute lint marks, but they are basically confined to the reverse areas. Nevertheless, this example is much superior overall to those usually encountered (many are impaired). Truly a classic and popular American rarity which has long been one of the "Dream Coins" for most U.S. collectors.

Struck at the suggestion of John Kasson, the U.S. minister to Austria and former Chairman of the Senate Committee of Coinage, Weights and Measures who thought it would be desirable to have an international gold trade coin based on the metric system used in European countries, such as the Austrian 8 Florins, French 20 Franc, Italian 20 Lire, Spanish 20 Pesetas and Dutch 8 Florins. Although the design was never adopted or actually authorized as a coin, it did state \$4, and contained about that much value in gold. Some pieces did achieve limited circulation in the Washington area and a few were also carried as pocket pieces. It is said that a week after they were distributed to Congressmen some appeared in the possession of "Madams" around Washington and were used for jewelry.

\$5 GOLD

625. **1804** Small 8, Capped Bust Right, Large Eagle, **Sharp VF-30/EF-40**, Relatively clean smooth surfaces with traces of yellow gold lustre and no major marks or abrasions. Reverse has a few faint “mint equalization marks” (to bring planchet down to proper weight), typical of many early gold and silver coins. Scarce date and variety.

626. **1807** Capped Bust Left, **Sharp Fine-15**, Nice surfaces. Popular first year of type. Scarce.

627. **1810** Large Date, Large 5, **Sharp VF-35**, bordering EF. Cleaned long ago and now toned to a pleasing coppery reddish brown. Hair details also are particularly bold and well defined. A very underrated type coin.

628. **1834** No Motto, Plain 4, **Select MS-63**, *PROOFLIKE* and *Sharply Struck with Raised Edges on both sides!* Lovely yellow gold color. Pinpoint rim nick reverse at 9 o'clock and a few light field marks, but otherwise quite nice. *Rare* so *Choice!*

Extremely rare. We have gone to very considerable lengths in researching these \$5's and believe the estimates here more reliable than many published to date. Treasury writeoffs of July, 1968 specify only 394 fives outstanding on all 12 districts. We would estimate possible 15 to 20 at the outside to survive of Boston fives; the true figure is apt to be nearer to 15 than to 20."* — Breen.

It realized there \$900; surely now some five years later this outstanding rarity should fetch somewhat more.

1073. **5¢ F1228**, **Fine**. An unusual error. The bottom perforations are well into the next note. Not simply off center, but the top perforations and bottom perforations are too far apart making a "tall" note.

1078. **5¢ F1230, CHOICE AU**, pretty!
1079. **5¢ F1230, Invert**, appears EF from the face, but the inverted back is soiled. One small edge tear.
1080. **5¢ F1232, CU**, Bright and attractive.

1092. **10¢ F1242 Vertical pair**. One note is CU, the other AU, both are bright with unusually large face margins.
1093. **10¢ F1244, CU**, A GEM but for centering.
1094. **10¢ F1245a, CHOICE CU**. Surcharged "63" only, but a trace of the "18". Scarce.
1095. **10¢ F1255, CU**, very bright bronze.
1096. **15¢ F1267, CU**, appears GEM from the face but has a few light rust stains on the back.
1097. **25¢ F1279, CU**, bright and fully perforated. A GEM but for a tiny missing corner tip.
1098. **25¢ F1279, CU**, perforated edges on all four sides. Small paper peel on the back.

1103. **25¢ F1291, CHOICE AU**.
1104. **50¢ F1311, VF**, A rare note. No problems, just a little circulation.

1105. **50¢ F1317 Vertical strip of 4.** All 50¢ multiples are scarce, this item all the more so as each of the notes are **CU**. The strip is folded once between the top and bottom pairs.
1106. **50¢ F1329, CU, aged paper.** Scarce.
1107. **FIVE FIFTH ISSUE NOTES:** Four **50¢ Crawfords** and a **10¢ Meredith**. All are better than **VF** and one of the Crawfords is **CU**.

Fractional Proofs and Specimens

1108. **5¢ F1231SP Pair, CU, and near choice.** Far nicer than average.
1109. **SIX SPECIMEN NOTES:** 10¢ F1253SP Face, AU; 5¢ F1236SP Reverse, CU; 25¢ F1282SP Face, CU; 50¢ F1358SP Reverse, AU; 3¢ F1226SP Reverse, CU; and 25¢ F1294SP Reverse, AU. The 25¢ F1294SP is wide margin, the rest are narrow.

1110. **15¢ F1273SP, Face only, the rare Colby-Spinner hand-signed note!** Narrow margin, none known with wide margins. **CU** but with ink erosion at the "Spinner" signature. *Still one of the best known!*

1113. **TWO 50¢ SPECIMEN PAIRS:** F1331SP pair and F1314SP pair, narrow margins. Both pairs are **CU** but have been removed from shields and are a bit wrinkled.
